

The Future of Family Health

With almost 80% of the needed funds pledged or received from many generous supporters, Grace Cottage is making plans to break ground on our new primary care clinic building in June 2027. Reaching this point is a tremendous milestone, made possible by the generosity of our community. The need for this clinic has never been clearer and it's incredibly exciting to see our plans become reality.

The current clinic cannot keep up with the demand for primary care in our community. We currently have over 400 people on our waiting list to become primary care patients, but we lack the room to see them. Even after turning every closet, nook, and office into workspaces, we do not have enough space for our primary care providers to see their patients efficiently.

"Over four decades, I have seen these dear old buildings rededicated, redesigned, and refitted to the limits of ingenuity," said Grace Cottage provider Dr. Timothy Shafer. "We do our best in a maze of narrow hallways, cramped offices, and exam rooms. Access to support services like laboratory and X-ray is awkwardly roundabout. Managing the rising demand for services is increasingly inefficient for staff and taxing for patients."

"There is breath-taking potential to serve our patients better in a new facility," added Dr. Shafer. "Access to high-quality primary care is the deep fabric of community health. Grace Cottage Family Health has the tradition, spirit, and culture to meet these needs. I hope the community will support this project and join me in gifting current and future generations the facility that such a fine institution deserves."

For more about this project, visit gracecottage.org/future or call 802-365-9109 to learn how you can help make this dream come true.

Grace Cottage Wins "Best of Brattleboro" Again!

Grace Cottage was a big winner in this year's *Brattleboro Reformer* Readers' Choice Awards poll. The winners were announced by the *Brattleboro Reformer* on Saturday, August 8.

Grace Cottage won in six categories, including: Best Hospital, Best Emergency Care, Best Physical Therapy, Best Doctor (Moss Linder, MD), Best Pediatrician (Mandy Lindsey, CPNP), and Best Place to Work.

Brattleboro Reformer readers have consistently honored Grace Cottage in this contest over the years. This is the tenth year in a row that Grace Cottage has won Best Place to Work and Best Physical Therapy, and the eighth year in a row that it has won Best Hospital, Best Emergency Care, Best Pediatrician and Best Doctor. Mandy Lindsey joined Grace Cottage two years ago as a pediatric nurse practitioner and this is her first year winning the Best Pediatrician award.

This is the fourth time that Dr. Moss Linder has been voted Best Doctor. "I'm grateful for the recognition, but the credit belongs to the entire team," said Dr. Linder. "I always try to do my best for every patient, in every encounter, and I'm proud to work alongside staff in every single department who share that same commitment to our patients."

Learn more about all the services and providers at Grace Cottage at gracecottage.org.

A grateful patient writes:

"I could not have had a better experience: friendly, competent, and fast. It is great to have such a facility nearby. Keep up the good work - and thank you!"

— Tom Kavet, Townshend, VT

A Word From the CEO

It is an exciting time in rural healthcare as grants are being awarded through the Rural Health Transformation Funds (RHTF). The State of Vermont received about \$195 million in federal funds in this first year, with the potential to receive a similar amount annually for up to five years.

Grace Cottage applied for funding through the programs for which we were eligible, and we are excited to announce we were successful in obtaining funding! (See article below). While none of the funds can be used for new construction, they will allow us to bring care innovation, new initiatives, to purchase and replace equipment, as well as make minor renovations.

We're moving closer to breaking ground on our new primary care clinic building and have raised over \$19M toward the

\$24M construction cost. Thank you to the many people who have helped bring us so close to our goal! If you'd like to help Grace Cottage reach the goal for this transformational project, please reach out to Charma at 802-365-9109.

We recently presented our fiscal year 2027 budget to the Green Mountain Care Board. (The recording can be found on the GMCB YouTube channel.) We feel confident that we have developed a sound budget that balances investment in our staff and facilities with a continued lean and thoughtful approach to expenses. We remain committed to these efforts and are active participants in the work occurring locally, regionally, and at the state level to reduce healthcare costs in Vermont.

We are so grateful for the support of our community- for the many people who stand by Grace Cottage. We truly appreciate you.

Thank you!

— *Olivia Sweetnam, CEO*

Grace Cottage Receives Rural Health Transformation Grants

Grace Cottage Family Health & Hospital is the recipient of four grants through the state's Rural Health Transformation (RHT) Program, a federal funding initiative designed to strengthen the rural healthcare workforce, make care more accessible, increase quality, and better tailor healthcare to meet the needs of rural communities. The RHT Program is funded by the Centers for Medicare and Medicaid Services (CMS).

Grace Cottage successfully applied for funding through the four programs for which we were eligible. We were grateful to receive funding for many projects, including expansion of the AI scribe program that helps providers by assisting with transcription and other work within a patient's medical record, a workforce training and recruitment initiative, and a facility upgrade program. While the latter of these expressly cannot be used for new construction, it will allow Grace Cottage to purchase new equipment and make minor renovations that would otherwise have been put off for at least several years.

Another grant focuses on upgrading our software to configure our existing electronic medical record to more efficiently retrieve the data required for population health reports and quality improvement. We are also waiting to hear about other grants in which Grace Cottage is a collaborator but not the sole applicant.

While none of the funds can be used for new construction, they will allow us to advance care delivery, purchase and replace equipment, as well as make needed minor renovations.

A grateful patient writes:

"I had an emergency situation and went to the Emergency Department. I was immediately taken care of as soon as I arrived at Grace Cottage. The staff knew what was potentially wrong and took action instantly. They saved my life.

They quickly took extra actions to secure my medical status and proactively ran tests to provide the special information to Cheshire Hospital, where I was transferring, to address the more serious issue facing me.

I am always amazed at the rapid interface existing between these two hospitals.

I even received a call from Grace Cottage less than six hours after my discharge for follow-up care with Dr. Everett. SUPER WORK done by true professionals. Thank you all."

— *Paul Noble, Chester, VT*

National Recognition for Stroke Care and Heart Attack Treatment

According to the American Heart Association, residents of rural areas are 40% more likely to develop heart disease and face a 30% higher risk of dying from a stroke. For patients in our community, access to high-quality heart attack and stroke care close to home is essential. Patients will be glad to know that Grace Cottage Family Health & Hospital has received two major recognitions from the American Heart Association for its commitment to providing high-quality care in a rural setting, underscoring the organization's continued focus on improving patient outcomes and experiences.

The hospital recently earned the **Get With The Guidelines® – Stroke Rural Recognition Bronze Award**, which recognizes hospitals that work to improve stroke care and address healthcare disparities in rural communities. The Bronze Award represents the highest recognition level available to Grace Cottage during its initial participation in the program. Grace Cottage's recognition reflects its efforts to enhance stroke treatment and reduce those risks for patients in the communities it serves.

In addition to its stroke-care recognition, Grace Cottage Hospital achieved **Silver Status** in the American Heart Association's **STEMI Achievement Award Program**. The designation

acknowledges the hospital's success in delivering timely and effective treatment for patients experiencing ST-elevation myocardial infarction (STEMI), the most severe and potentially fatal type of heart attack.

The hospital's staff earned the distinction by demonstrating a high level of proficiency in meeting national standards for heart attack care and response.

"These recognitions represent the dedication, teamwork, and commitment our Emergency Department brings to every patient, every day," said Keanna Cook, Grace Cottage's Emergency Nursing Director. "In a rural hospital, minutes matter during a stroke or heart attack, and our team works tirelessly to ensure patients receive the highest standard of care from the moment they arrive. I'm incredibly proud of what we've accomplished together, which reflects our promise to our community that they can trust us to provide exceptional emergency care when they need it most." Grace Cottage's Emergency Department is open 24 hours, 7 days a week.

**American
Heart
Association.**

Wishes Granted...

- Glen Richardson gave funds for a portable ultrasound unit for the Emergency Department in memory of his wife, Lauri Richardson.
- The estate of Eileen Sweeney gave a memorial donation for the purchase of a Spot-Vision Screener for the Clinic, video goggles to visualize and record eye movement for the Outpatient Rehab Department, and equipment for the Lab.
- Deerfield Valley Rotary funded a StatSpin for the Lab.
- Karren and Steven Meyer gave a donation that allowed the Lab to purchase a replacement Fresh Frozen Plasma Thawer System, in memory of her father, Robert Oscar Loring.
- Chuck and Marie Tattersall gave funds to purchase three recliner chairs for hospital patients in memory of Marie's sister, Honorah Hinkle.
- In appreciation for the care that she received while a patient at Grace Cottage, Pratima Vaidya gave a donation for the purchase of an alternating pressure air mattress and two Kangaroo OMNI feeding pumps, in memory of her husband Sam Vaidya.
- Dummerston's Town Meeting appropriation allowed Grace Cottage to replace two worn hospital wheelchairs.
- Putney Charities gave a donation for the purchase of two digital scales for the Clinic.
- Mountain Mind and Movement of Townshend gave a donation for the purchase of a TRX suspension training exercise system, and other equipment to benefit hospital rehab patients.

Wishes Made...

- The Emergency Department needs two Portable Pulse Oximeters, \$715 each; a Ring Rescue Kit, \$3,435, and a Blanket Warmer, \$8,230.
- The Dietary Department could use two sets of replacement dinner plates, \$202 each.
- The Primary Care Clinic needs two glucose meters with readers & docking stations, \$1,010 each, and two audiometers: a portable one costing \$1,200, and a larger stationary unit costing \$1,800.
- Housekeeping needs a Numatic vacuum, \$500.
- The Outpatient Rehabilitation Department would benefit from a set of electric parallel bars, a motorized system that helps with gait training, balance recovery, and standing exercises, \$8,650.

Grateful patients write:

"I went to the Emergency Department for an allergic reaction from gardening. The waiting room wasn't crowded, and the staff was great. Thank you for being there and treating me quickly, easily, and completely."

— *Christine Heye*, Townshend, VT

"My visit to the ER really exceeded my expectations. Grace Cottage is an example of what a small rural hospital can and should be."

— *Herve Pelletier*, Grafton, VT

17th Annual Spring Into Health 5K

On Saturday, May 9, Grace Cottage Family Health & Hospital hosted its 17th annual *Spring into Health* 5K. Despite the cool, rainy weather, we welcomed 65 participants: runners, walkers, and strollers. We are grateful to Rescue Inc. for being on hand to help keep the participants safe during the event.

Our generous sponsors included M&T Bank, Linda Bastian, Big Picture Farm, Burrows Sports, Cota & Cota, Riverbend Farm Market, Smith Family Maple Syrup, and WEEI 93.7 Sports Radio.

Congratulations to Al Claussen, the fastest runner at 19:59, and to Julie Wolf, the fastest female runner at 24:36. Ken Walker earned recognition as the event's "most experienced" participant.

Proceeds from this year's 5K benefited the Patient Care Fund at Grace Cottage, helping us to care for our community.

Thank you again to our many volunteers, sponsors, and all who participated. Mark your calendar for next year's event: Saturday, May 8, 2027. Hope to see you there!!

Dr. Moss Linder congratulates the fastest runner, Al Claussen (L); fastest female, Julie Wolf (C); and the most experienced runner, Ken Walker

A Glorious 17th Annual Tee It Up For Health Golf Benefit

Twenty-two teams, thirty-six sponsors, and twenty volunteers enjoyed a picture-perfect day while participating in our 17th Annual *Tee It Up for Health* Golf Tournament on Saturday, June 13, at Haystack Golf Course in Wilmington.

The weather was beautiful, the course was in great condition, and we raised over \$54,000 before expenses, thanks to all the generous sponsors, golfers, and volunteers. Net proceeds from the event benefited our Patient Care Fund. Donations from the community keep this small, independent critical access hospital and rural health clinic vibrant.

Tournament Results:

Winners (score of 63): Matt Scott, Ian Barusso, Trevor Reynolds, and Alex Kaiser (pictured above)

2nd place: Rob Lawrence, Paul Hoey, Steve Krusiewski, and Wemyss Scott

Closest to the Pin: Don Gokey and Reggie Parker

Longest Drive: Elizabeth Walker and Kirk Nims

Putting Contest: David Marks

Thanks to our generous sponsors:

Event Sponsors: The Richards Group, Haystack Golf Club

Platinum Sponsors: M&T Bank, Elizabeth Walker

Gold Sponsor: Brook Field Service

Air Cannon: Casella Waste Management

Silver Sponsors: 802 Credit Union, Andy & Linda Barber, Linda Bastian, Coverys, Lavallee Brensinger Architects, Lawrence & Lober Electric, RBC Insurance/Hilb Group, Ski Country Legal, West River Family Dental

Hole Sponsors: Artisanal Cellars, Baker Newman Noyes, Brattleboro Savings & Loan, Brunelle & Son Construction, Costello Valente & Gentry, Engelberth Construction, Farnum Insulators, Howard Printing, Irving Energy, Members First Credit Union, Northeast Delta Dental, Primmer Piper Eggleston & Cramer, SERVPRO of Windham & Windsor Counties, Southern Vermont Podiatry, WW Building Supply

Bronze Sponsors: Blue Cross Blue Shield of Vermont, Lawton Floor Design, Pepsi Brattleboro, W&B Management in memory of Effie Chamberlin, and Wally & Eleanor Lowe

Flag Sponsors: June Dibble in memory of Phil Dibble, Glenn LaMay in memory of Dorothy & Robert LaMay.

Save the date for the 18th Annual *Tee It Up for Health* benefit at Haystack Golf Club, on June 12, 2027.

Saturday Flu Shot Clinics October 3rd and November 7th

On October 3 and November 7, Grace Cottage Family Health will host Saturday flu shot clinics from 9 a.m. to noon.

Pre-registration is recommended, but walk-ins are accepted.

Anyone under age 18 must be accompanied by a parent/guardian. You do not need to be an established Grace Cottage patient to attend one of these clinics. All age-appropriate flu shots are available.

If you have medical insurance, bring your ID and insurance card with you. If you are not insured, payment for your flu shot is expected at the time of service.

Flu shots are also available weekdays by appointment. For more information about the clinics or to make an appointment, call 802-365-4331.

A Great Day at the Fair!

Thanks to generous and enthusiastic fairgoers and many, many volunteers, the 76th Annual Grace Cottage Hospital Fair Day was a great success!

On Saturday, August 1, well over a thousand community members and visitors gathered on the Townshend Common to enjoy delicious food, bid on auction items, shop for household goods, books, and plants, listen to live music, try their luck in the raffle, show off their face paint, ride ponies, and “fish” at the Fishpond Booth. While the day offered something for everyone, the true highlight was coming together to reconnect with community, friends, and family.

Generous fairgoers and donors helped us raise \$47,000 before expenses, which will go toward the construction of our new primary care clinic building, a crucial project which will help us improve patient access and continue to provide high-quality healthcare close to home.

Generous community support keeps this small, independent rural hospital thriving. We are so grateful to everyone who helped make Hospital Fair Day such a success, particularly Hospital Fair Day Co-Chairs Connie Holt and Helen Holt, whose tireless dedication and hard work make Fair Day possible. We hope to see you next year on Saturday, August 7th for more Fair Day fun!

Grace Cottage's Swing Bed Rehabilitation

What exactly is a “swing bed”?

A swing bed program allows patients who no longer need acute hospital care, but are not yet ready to return home safely, to remain in a hospital setting while receiving short-term skilled nursing and rehabilitative services. At Grace Cottage, swing bed patients benefit from 24-hour nursing care and access to hospital resources such as laboratory and diagnostic imaging services, pharmacy services, 24-hour on-call providers, and physical, occupational, and speech therapy.

Who can benefit from a swing bed stay?

Swing bed care can be an important next step for patients recovering from an illness, injury, surgery, or hospitalization who still need skilled care before returning home. This may include patients recovering from hip or knee replacement, stroke, pneumonia, or other serious illnesses, as well as those who need wound care, IV medications, or rehabilitation following a prolonged hospitalization.

Patients may receive skilled nursing care along with physical, occupational, and/or speech therapy based on their individual needs. The goal is to help each patient regain strength, mobility, confidence, and independence so they can return home safely.

Why is it called a “swing bed”?

The term refers to a hospital bed that can “swing” from one level of care to another. A patient may initially receive acute hospital care and, once that level of care is no longer necessary, transition—or “swing”—to skilled nursing and rehabilitation care without having to leave the hospital.

Patients may also transfer to Grace Cottage from another hospital when they are ready to leave acute care but still need additional skilled nursing or rehabilitation before going home.

Swing bed care offers many of the skilled services available in a traditional skilled nursing facility, but in a hospital setting with nursing care around the clock and convenient access to hospital services.

Grace Cottage is proud to provide personalized, high-quality swing bed care focused on helping patients recover, rebuild their independence, and return home.

Physical Therapy in Recovery

Physical therapy (PT) plays an important role in helping patients regain strength, mobility, and independence during their swing bed stay. The goal is simple: to help patients return home as soon, and as safely, as possible. After a stroke, surgery, illness, or injury, everyday activities that once seemed routine can become challenging. Stairs, uneven surfaces, long distances between

rooms, or simply getting in and out of a chair may present new obstacles. Physical therapists help patients prepare for these real-life challenges through gait and balance training, lower-extremity strengthening, and other individualized exercises. Therapy may include practicing stairs, walking safely, and learning to use an assistive device such as a cane, walker, or crutches. The goal is for patients to return home not only stronger, but also safer and more confident in their mobility.

Occupational Therapy in Recovery

Occupational therapy (OT) focuses on helping patients regain the skills they need to manage everyday life safely and independently.

Because every patient's needs are different, occupational therapy is tailored to the individual's health, abilities, lifestyle, home environment, and personal goals. Treatment may focus on everyday activities such as bathing, dressing, grooming, toileting, preparing meals, and other tasks needed to live safely at home.

Occupational therapists also work with patients to improve strength, endurance, coordination, and functional abilities. They may recommend new techniques, adaptive equipment, or changes to the home environment that make daily activities easier and safer.

OT is part of Grace Cottage's multidisciplinary approach to recovery, working closely with physical and speech therapists, nurses, physicians, and other medical staff, social workers, patients, families, and caregivers. Together, the team works toward one shared goal: helping each patient achieve the greatest possible independence and return home safely.

Speech and Language Pathology in Recovery

SLP involves much more than speech. Speech-language pathologists can also help patients with swallowing, communication, memory, attention, and problem-solving—all skills that can be essential to living safely and independently.

For patients recovering from a stroke, illness, or injury, SLP may include strategies for safer eating and swallowing, exercises to improve communication, or activities designed to strengthen cognitive skills needed for everyday life.

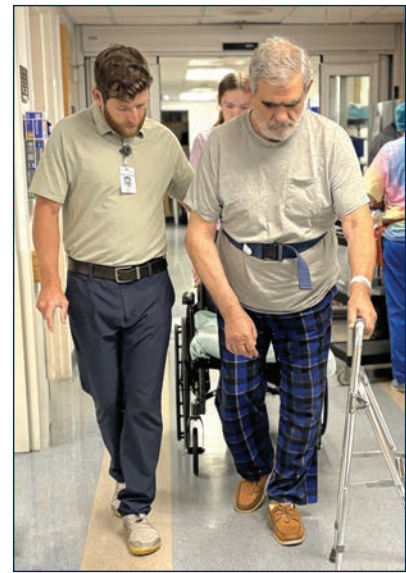

Whether helping someone communicate more easily with loved ones, safely enjoy a meal, or manage the cognitive demands of daily life, speech-language pathology is another important part of helping patients return home safely and confidently.

Helping Patients Get Back Home

Grace Cottage's swing bed program brings skilled nursing, rehabilitation, and hospital services together in one setting, with care tailored to each patient's individual recovery goals.

Our commitment to rehabilitation and personalized care is one reason Grace Cottage has repeatedly been recognized by readers of the *Brattleboro Reformer* as Best Hospital and Best Physical Therapy.

If you or a loved one is preparing for surgery or recovering from a hospitalization, ask your healthcare provider whether swing bed care at Grace Cottage could be an appropriate next step in your recovery.

The Gift of Giving

It's thanks to our generous supporters that Grace Cottage has existed for more than 77 years as an independent, non-profit hospital that prioritizes patient care ahead of finances. There are so many ways to give to Grace Cottage, and we'd be happy to discuss any of them with you, in complete confidentiality. Here are a few ideas:

Stock: If you've owned it for more than one year, giving stock that has appreciated in value is one of the most advantageous ways for you to make a charitable donation, saving capital gains tax.

IRA: If you are over age 72, you are required to take a minimum distribution (RMD) from your IRA. Donating to Grace Cottage directly from your IRA will avoid paying taxes on this income. You may also name Grace Cottage as the beneficiary of your IRA.

Life Insurance: Naming Grace Cottage as the beneficiary of a life insurance policy is an easy, impactful way to donate. Many supporters have done this over the years.

Real Estate: A gift of real estate permits you to receive tax and income advantages, while making a significant gift. If your children/grandchildren/other heirs are not interested in owning your home, you may consider donating it to Grace Cottage. We'll take care of the rest!

Donor-Advised Fund (DAF): Many of our supporters make gifts to the hospital via their donor-advised funds at Fidelity, Schwab, Vanguard, and elsewhere.

Monthly Giving: Join the many donors who have asked us to charge a specific amount to their credit card each month. You can change the amount or cancel at any time.

Call Charma at (802) 365-9109 for more information. Your donations help ensure Grace Cottage is here to provide healthcare for generations to come.

Eileen Fahey

Grace Cottage mourns the loss of Eileen Fahey, who passed away on September 1. Eileen lived in Townshend for

nearly five decades and contributed to our community in countless ways, including chairing our Hospital Fair Day (a year-round task!) for many years. We extend our most sincere sympathies to her family.

Eileen Sweeney

Grace Cottage was sad to learn of the passing of Eileen Sweeney. Eileen served on the Grace Cottage Foundation Board during the 24

years she lived in Newfane and was a generous supporter. Our thoughts are with her husband Michael, as well as her children and grandchildren.

Dr. Richard Thall

Dr. Richard Thall of Locust Valley, NY, and Newfane, VT, died on July 12th at age 92. Dick and his beloved wife, Alice, were

very generous and longtime supporters of Grace Cottage, funding the Thall Garden of Grace in 1999 and, subsequently, numerous building renovations and updates to medical equipment. We extend our deep condolences to the entire Thall family.

Donations Were Recently Received In Honor Of:

Holly Dexter Barrett ♦ Charma Bonanno ♦ James Burt ♦ Peter Carlson ♦ Lexa Clark ♦ Grace Cottage Volunteers
Dr. Walter Griffiths ♦ Dalton Johnson ♦ Catherine Nemchek ♦ Elizabeth Oakes ♦ Carleen Pelsue ♦ Phil Schafer
Andrea Seaton ♦ Andrew Semegram ♦ Dr. Timothy Shafer ♦ Megan Woods

Memorial Gifts

Donations have been received between May 1st and September 10th in memory of the following individuals:

Chris & Pris Ballou ♦ Larry & Pat Ballou ♦ Russ Barber ♦ Jim & Mil Bogdany, Sr. ♦ Jay Bristol ♦ David Brown
Gladys Brown ♦ Patty Brown ♦ John Carroll ♦ Dr. John & Dr. Nancy Chard ♦ Chris Coleman ♦ Phil Coleman
Trish Gale DeMarco ♦ Ernie Dibble ♦ Phil Dibble ♦ Steve Emery ♦ Eileen Fahey ♦ Nat & Irene Fillow ♦ Dr. Edward & Dr. Judy Flower
Albert Fusco ♦ Barbara Jean Fusco ♦ John Kenneth & Catherine Atwater Galbraith ♦ Roland Gould ♦ Stan Holt ♦ Eris Howe
Hope Johnson ♦ Joel Johnson ♦ Helen Kirwan ♦ Karen Boyd Knalfa ♦ Jack Lambert ♦ Diana Lane ♦ Richard Lang, Jr.
Richard & Ruth Lapan ♦ Helen Lewis ♦ Marion Otis Lewis ♦ Robert Oscar Loring ♦ Jamis Lott ♦ Priscilla Lyman
Jeanne Marion ♦ Larry Martin ♦ Jim & Barbara McMennamin ♦ Ken Moberly ♦ Art Monette ♦ Dr. Edward Mulhern ♦ Carl Otis
Dr. Carlos Otis ♦ Arthur Park ♦ Bruce Parlman ♦ Jim & Jane Parlman ♦ Bob Phelps ♦ Debra Pierson ♦ Don & Elaine Prouty
Alexander Rabinowitch ♦ Ann Richards ♦ Lauri Richardson ♦ Conn Rose ♦ Hank & Shirley Sanders ♦ Dennis Scharback
Irene Silberstein ♦ Elizabeth Spencer ♦ Catherine N. Stratton ♦ Eileen Sweeney ♦ Bill & Leona Tabell
Dr. Richard Thall ♦ Porter & Lillian Thayer ♦ Thomas L. Toleno ♦ Elizabeth Torrey ♦ Subhash (Sam) Vaidya
Diana Toomey ♦ Merton & Hazel Wilson ♦ Janet Wolfe & Larry Doores

We extend our sympathy to the families and friends of these loved ones, and our appreciation to those who have given in their memories. When memorial gifts are received by Grace Cottage, the donor is thanked, and the next of kin is notified of the gift. (The amount given is never divulged.)

A grateful patient writes:

"From the first moment I arrived at Grace Cottage, I knew I was finally in the right hands.
